Burlington Advances Sharnly on Heavy Transactions - St. Paul Strong-Southern Pacific Buoyant. Weakness in Missouri Pacific

NEW YORK, April 23.-The influence of sterday afternoon's sharp break in the took Market was reflected in a striking agree of irregularity in this morning's ealings. Upon the opening of busines neral class and ownership. No definite endency appeared anywhere in the mar

ecline, while Texas and Pacific was d idedly strong. Southern Pacific, which feature of the market in respec f activity in yesterday's dealings, opene a further sharp advance this morning hich was not, however, fully retained in the subsequent dealings. The Atchison is-sues were particularly strong, and Union Pacific showed a disposition toward re-

Francisco shares. All of these stocks were firm. In the Industrial quarter there were tremendous transactions in the United States Steel stocks, which, however, moved within narrow limits, and moderate dealings in Sugar Refining, but otherwise little was done in that direction. The local traction group was generally steady, with a substantial advance showing in Metropolitan Street Railway. The copper stocks and the other specialities were not prominent in the early dealings. London furnished a generally higher range of prices for American stocks, and upon the opening of business here foreign houses bought quite heavily of the internationally listed stocks. There was a virtual absence of news over night bearing upon the market or any which would account directly for yesterday's extensive reaction.

There have been a number of short de-clines of a point or two during the progress of the boom, and they have all given way shortly to a resumption of the upward movement. The public is a heavy buyer of stocks and the professionals are nursing the boom for all that it is worth. The insiders are probably selling stocks heavily, but their operations are OATSstocks heavily, but their operations are very guarded, and no one seems certain of them. All that it is safe to say in such a market is that prices for the most part are above their legitimate level many dollars a share and cannot remain at these prices always. This means to a conservative operator of course that the market is a dangerous one. A few securities still look cheap and will be bought cautiously on the reactions. Aside from these securities people that are not simply gambling will prefer to hold the money they have already accumulated rather than risk it against long odds. POHK-LARD-RIBS-New York Cotton Market. The Burlington deal was pushed for-

ward as a bull card again this morning, and to the accompaniment of new rumors the stock was boomed up to 196, equal to the best previous price. The story today was that the announcement of the deal will be made tomorrow and that it will give to Burlington stockholders \$180 in 4 per cent bonds, \$20 in cash and \$2 for a quarterly dividend at the rate of 8 per cent, all for 1 share of stock This in bonds, the terms heretofore announced semi-officially. The quarterly dividend of 2 per cent is an addition. It is said that the bonds will be twenty-year bends is sued jointly by the Northern Pacific and the Great Northern and that they will be redeemable at 105 in five years at the option of the railways. Northern Pacific was not strong this morning, the Street apparently not considering the issue of such an immense amount of bonds a very great this first server which is the street and the such as the

traction securities and Consolidated Gas was that the adjournment of the New York Legislature should be considered a bullish argument. There is much enthus-iasm in the street regarding Manhattan and Brooklyn Rapid Transit.

St. Paul was rather weak, and it was said that today the St. Paul deal is not "on." Rock Island, too, showed signs of rather heavy selling and the Atchise were not buoyant.

Missouri Pacific tumbled sharply at the opening to 106½ or 3½ points below the high price of yesterday. It recovered part

It is now said that the stock will be put on a 5 per cent dividend basis and kept there and that it wil self around 120 in the near future. It is not a stock that one can hold with any peace of mind, however.

The selling in the United States Stee curities seems better than the buying ll the time, and they were again weak his morning. As far as can be judged rom the outside, the insiders are feeding from the outside, the insiders are feeding the stock out steadily on the strength of the bull market. This, however, need not cause much despondency. The clique must sell all the stock it can from time to time if it intends to continue the boom at the favorable opportunity. The outlook for both the preferred and the common is good.

The instant success of the offering in this country shows the existence of an enormous fund awaiting investment. In financial circles the success of the negotiations by American bankers to share in the offerings was attributed to Mr. Morgan's presence in London and the arrangements under way for some time to organize a syndicate the instant details of the loan were announced. The loan was offered simultaneously in the United States yesterday by J. P. Morgan & Co., at Philadelphia, and Kidder, Peabody & Co., at Boston.

Congregationalists do not pr that Prof. Herron shall pose as a marty when the charge against him is solel that of lack of moral character. Re-R. H. Vittum, who has been for three vars pastor of the Grinnell Congregation-al Church, one of the leading churches in Iowa, and is a prominent member of the Grinnell Congregational Association, said: "It is the first intimation I have even had that anyone had thought of making any such movement. Herron has been in any such movement. Herron has been in the association and church for eight years, and what Mr. Wentworth, Mr. Herron's agent, pleases to call heresy was as well known five years ago as is the case now. It is probable that charges of conduct unworthy a Christian and a genterm will be brought against Mr. Herron's conduct unworthy a Christian and a genterm will be brought against Mr. Herron's agent will not accuse the soft trying a man for heresy and Socialism."

Soon the boat was seen to plunge over the brink of the Horse Shoe Falls and the man was seen no more.

A COTTON MILL COMBINE.

Representatives of the Morgans Said to Be After Options. FALL RIVER, Mass., April 23.-A wellknown manufacturer of this city is au-thority for the statement that J. P. Mor-gan & Co., are negotiating for the purchase of the cotton mills here, with the intention of combining them into a gi gantic company.

The first movement that attracted atthe Southern States, whose business it was to look over the mills of that locality to ascertain the value of the plants and talk with the owners, with an idea of obtaining control of the stock. So far as is known, no one has been directly approached in Fall River, and the policy seems to be to secure options on as many mills as possible outside of this city, and then, by enlisting the services of a few leaders here, purchase the stock of local corporations at a valuation to be fixed

dent would soon befall him. Death came to him in an awful form at 3 o'clock, when his body was caught between loaded coal cars and nearly every bone in his body crushed. After the car had completed its work the body fell in, front of a locomotive and was horribly mangled.

Health in her beaming eyes, health in her glowing cheek, health in her merry laugh. Yet country air and country hours can't save her from the common experience of women—an experience which dulls the eye, pales the cheek, and turns the laugh to a sigh. Womanly ills come to almost all. But for these ills there is help and healing in Dr. Pierce's Favorite Prescription. It regulates the periods, stops unhealthy drains, cures inflammation, ulceration and female weakness. It makes weak women strong, sick women well.

strong, sick women weil.

"Miss Elia Sapp, of Jamestown, Guilford Co., N. C., writes: "I had suffered three years or more at monthly periods. It seemed as though I would die with pain in my back and stomach. I could not stand without fainting; had given up all hope of ever being cured, when one of my friends Insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I feit better—had better appetite and slept better. Now I am happy to say I am entirely cured, and all done in two months' time, when all other medicines had failed to do any good at all."

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

Martin Meyers Found Dead, and the Gas Turned On. Martin Meyers, about twenty-nve years of age, of New Baltimore, York county, Pa., was found dead in an upper room of the St. Charles Hotel, 495½ Pennsylvania Avenue northwest, shortly before noon today. A gas jet turned fully on indicated that he had been asphyxiated. Whether his death was the result of accident or was premeditated wili probably never be known. The body was removed to the morgue and the relatives of the

deceased notified.

Meyers arrived in Washington from ichmond last night and was taken to the St. Charles Hotel by a porter for the house. After registering he was shown to a room on the upper floor about 8:30 o'clock and was never seen alive again. This morning shortly before noon the occupant of an adjoining room detected the odor of gas and traced it to the room occupied by Meyers. A maid attempted to pen the door with a pass key, but it was

William Kaleski, the proprietor of the otel, was called and forced the door. The notel, was called and forced the door. The police were notified and Detective Williams and roliceman Whalen took charge of the remains. Among his effects were found letters from his sister, Miss Jennie Meyers Hanover, York county, Pa., and others from his brother, C. W. Meyers, 59 Abbottstown Street, East Berlin, Pa.

Meyers was a painted and art student and among his possessions were found evidences of his having been a religious enthusiast. Inspector Boardman telegraphed the relatives of the dead man this afternoon.

THE NEW BRITISH LOAN. Fifty Million Dollars' Worth Placed

in the United States. NEW YORK, April 23.-Fifty million dollars of Great Britain's new loan ha been placed in the United States. Th National City Bank, J. P. Morgan & Co., Baring, Magonn & Co., Life Insurance Company comprise yndicate that has taken the loan, full de

ails of which were contained in circular ssued by J. P. Morgan & Co. Ameri rranged for as the investment yield of the new consols places the loan in the front rank of high class Government inestments. It was announced yesterday fternoon that most of the loan had been olaced by the syndicate.

Of the amount subscribed, the New

York Life Insurance Company has bought sides this, it put in a separate subscrip tion yesterday for \$5,000,000 more, aggregat ing as high a bid as any American insu ance company ever put in for a foreign Government loon. Speaking of his com-pany's subscription, J. A. McCall, President of the New York Life, said: "We have bought the bonds because nothing in the whole range of high-class investments of the market today surpasses the security of a British consol at the price contracte for. The bonds have already gone to premium in London, and may be depende pon to go above par before long. For corporation holding trust funds, nothing then you have Great Britain behind it o one could ask for better security

is so good as a Government bond, and It is understood that besides the \$50,000, 00 contracted for, syndicate members have put in provisional bids for severa millions more. This was done to provide or the "overflow subscriptions" which were expected as soon as details of the loan were announced. The Mutual Life Insurance Company was reported to have subscribed for \$5,000,000 of the loan, but at the company's office the rumor could not be confirmed. In syndicate circles however, it was intimated that the com-

any had put in such a bid.

pany had put in such a bid.

President Stillman, of the National City Bank, admitted that his institution, with other members of the syndicate, had taken \$50,000,000 of the bonds.

The British consols offered in this country at 94½ per cent, payable at various dates up to December 5 next, bear interest at the rate of 2½ per cent per annum up to April 5, 1903, and afterward at 2½ per cent per annum. The range of prices in 1894 was 95% to 160½; in 1895, 160% to 160%; in 1896, 160% to 11½; in 1898, 97% to 11½; in 1899, 97% to 11½;; in 1899, 97% to 11½;; in 1900, 96% to 160%. Pending the issue of the present loan, the lowest quotation this year has been 94%.

On the basis of the present issue, while for the whole term of the bend (after paying the present increased income tax) the investment only pays 2.81 per cent during the first year, the holder will receive net 3% per cent on his money, besides whatever rise in price results from a more settled state of affairs in South Africa.

CARRIED OVER NIAGARA.

NIAGARA FALLS, April 23.-Yesterday afternoon between 1 and 2 o'clock workmen engaged on the new plant of the Natural Food Company, which is located on the bank of the upper river, about a half mile back from the falls, were horrified, when looking across the river from their elevated position on the iron-work, to see a man and a boat caught in the swift current and swept into the upper rapids. When first seen the craft and its occupant were well out in midstream, the man pulling at the oars in a desperate effort
